

# Water Meter Replacement

The City of Rose City is excited to announce that Performance Meter Group (HydroPro Solutions) will be replacing water meters with auto-read meters and replacing boxes and lids in the upcoming weeks. **PLEASE MAKE SURE YOUR METER IS ACCESSIBLE.**

Please be informed that Performance Meter Group (HydroPro Solutions) will be replacing the water meters in your area in the next few weeks.

- The meter team and trucks will be clearly identified
- The meter team does not need access inside your home, but meter accessibility is needed (no locked gates, dogs should be secured, etc.).
- The installation process can result in: Discolored water and air in the water lines. Prior to using your water, we recommend that you flush your lines by turning on your bathtub's cold-water faucet or use an outside faucet. Our installers have flushed the outside faucet when accessible. Avoid flushing from faucets that are hot water.
- You will experience a short service interruption during replacement (typically 1 hour max)

**If you are experiencing any issues and need assistance, please call (972) 408-7514**

Please call the office if you have any questions, please contact Rose City Hall or contact meter team at:
